UNCOVERING TOMORROW'S ENERGY TODAY

DEVELOPING LITHIUM ASSETS IN THE HEART OF THE PROLIFICALLY MINERALIZED JAMES BAY REGION

THE ASSET - NEMASKA2

- 8,300 hectares with 20+ potentially spodumene-bearing **pegmatite outcrops**, most averaging 900 x 1,000 meters squared.
- Consistent with that of Nemaska's Whabouchi Lithium Mine, Li-FT Power and Critical Elements lithium projects also located in the district.
- **Excellent infrastructure** through and around property, including airport and highway access within project boundaries.
- **Top 10 global mining jurisdiction** with Federal and Provincial support to develop regional lithium supply chain.

THE RACE FOR LITHIUM SUPPLY

- Canada's only lithium concentrate for market is scheduled to be processed in Quebec beginning in H1-2023, from a pegmatite hosted lithium feldspar (spodumene) source.
- On January 31st, GM announced a \$650 million investment into Lithium Americas to develop their Thacker Pass lithium mine in Nevada.
- On December 15th, Reuters published the column "Lithium still super-charged as supply chases after demand", discussing the ongoing supply crunch as automakers ramp up their EV offerings.

UPCOMING CATALYSTS

- Commencement of field work.
- Drill target delineation.
- Drill program / News flow from exploration results.

BRIGADIER GOLD LIMITED

TSX-V: BRG | OTCQB: BGADF | Frankfurt: B7LM

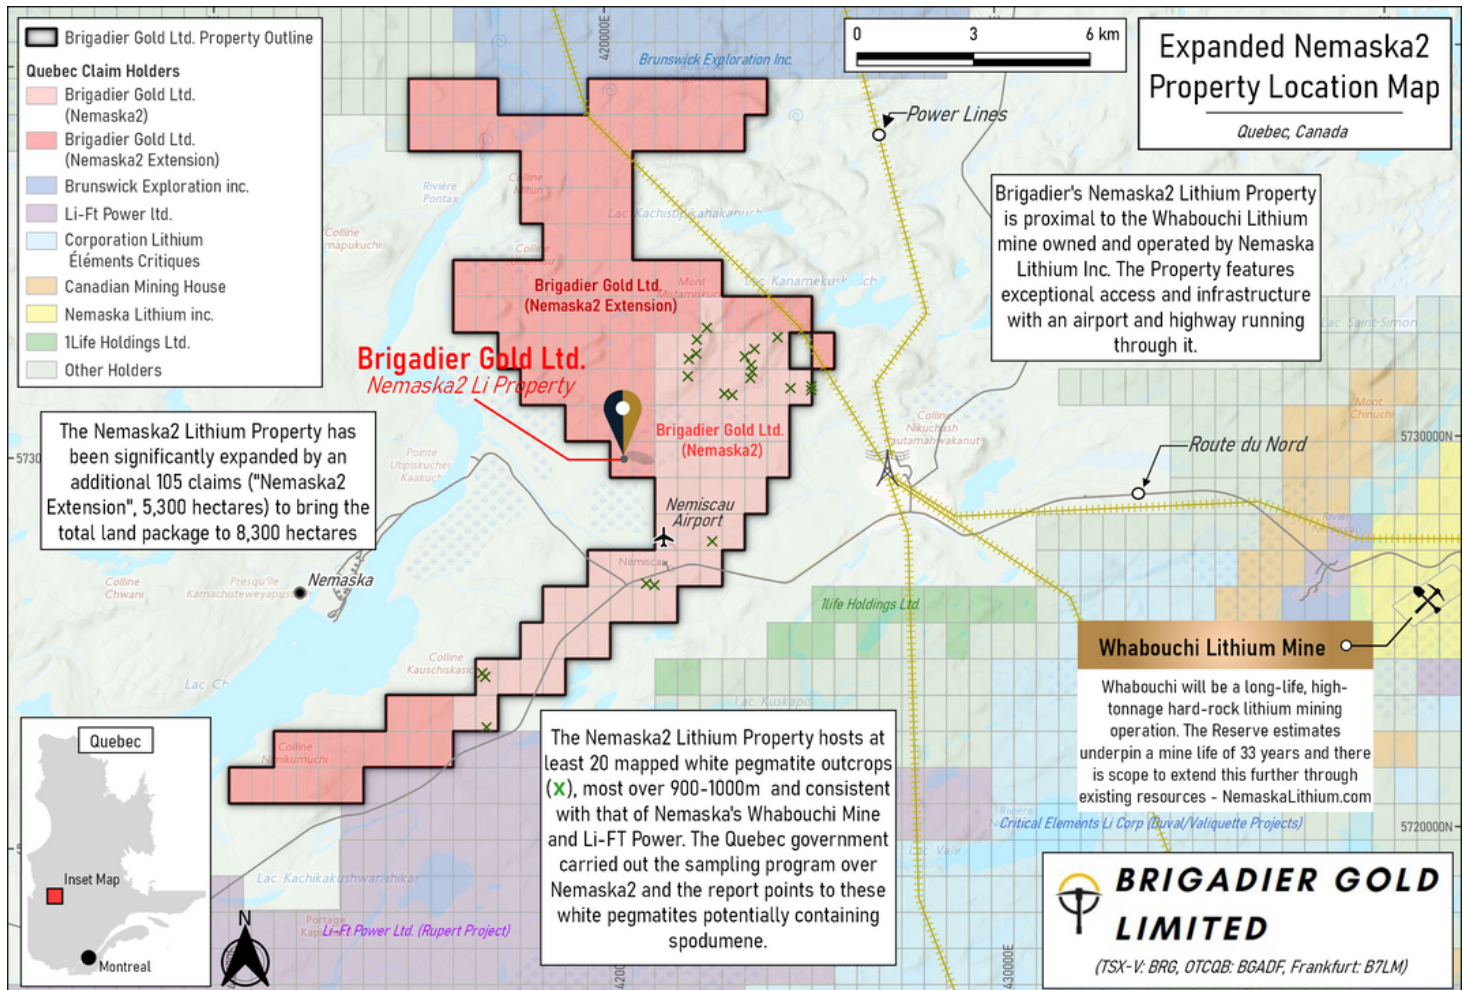

HIGHLIGHTS

- 8,300 Ha. in the heart of Northern Quebec's lithium district.
- 20+ under-explored and undrilled potentially spodumene-bearing pegmatite outcrops.
- In proximity to Nemaska Lithium's Whabouchi Mine. (27.3Mt proven and probable reserves, 33 year mine life).
- Highway and Airport within property borders.

WHY QUEBEC?

- Quebec experiencing a renaissance in lithium. exploration with full Federal and Provincial support.
- Québec is Canada's largest producer of iron concentrate and zinc, the country's second-largest producer of gold, is the dominant source of lithium in Canada, and accounts for 20% of Canada's total mining output.
- Consistently ranked in the top quartile by the Fraser Institute for most attractive jurisdictions for mining investment.
